

Tuning in to Kids

CHRISTCHURCH 2014

TUNING IN TO KIDS™
Emotionally Intelligent Parenting

**Thursday 27 November 2014
to Friday 28 November 2014**

Tuning in to Kids is an evidence based parenting program developed by Dr. Sophie Havighurst and Ann Harley in Melbourne, with research trials conducted through The University of Melbourne. The program provides a new way of working with families that focuses on the emotional connection between parents and children. The program teaches parents skills in *emotion coaching*, which is to recognise, understand and manage their own and their children's emotions. **Tuning in to Kids** teaches parents to use children's emotional experiences as an opportunity for closeness and teaching, as well as to understand and use emotions effectively to self soothe and to use these skills to assist in problem solving and limit setting. Multiple randomised controlled trials of the program have shown that Tuning in to Kids leads to very positive outcomes including improving parenting, parent-child relationships and children's emotional competence and behaviour. The program has been particularly effective with children with clinical level emotional and behavioural difficulties.

***Currency conversions** will be performed automatically by your bank when you pay by credit card. We have estimated the price in New Zealand Dollars using the online currency calculator **xe.com**. Please contact your bank to find out exactly what fees you may be charged for currency conversion.

WHAT IS INCLUDED IN THE PROGRAM MANUAL?

Tuning in to Kids is formatted as a six-session weekly program with a structured manual for group facilitators to follow. The manual includes a range of resources including comprehensive background information, session plans, session notes, printed and electronic versions of parent handouts and a DVD demonstrating the parenting skills with families from a range of cultural backgrounds. Tuning in to Kids covers key skills using direct teaching, demonstration, small group exercises, role plays and group discussion. The manual is a complete kit for use in both clinical and community settings.
